Spock Reply

Attached herewith is a draft memo designed to be the sort of paper that, per McG's request, could be passed "under two lines" as an answer to Dr. Spock or to others who write the President in similar vein. Fiddle it to meet your needs, of course, and let me know if you require something completely different.

For some weeks I have considered writing an article for submission to some journal such as Harpers or The Reporter along these general lines or, perhaps, concentrated on the NLF. (Proper official clearance would naturally have to be obtained and securing it might not be easy.) If you or others think such an endeavor could be useful, I will turn to on this task and see what happens.

GEORGE A. CARVER, JR.
